PROFESSIONAL SUMMARY

Product-focused professional with 30 months building and shipping banking CRM products for Citibank, spanning requirements definition, backlog ownership, and MVP delivery, with UX and workflow decisions that lifted adoption and renewals. IIM Bangalore MBA and CFA Level I, now in digital transformation consulting at PwC.

EDUCATION

MBA (PGP), Indian Institute of Management (IIM) Bangalore | 2024-2026 | CGPA 3.02/4

BE (CSE), College of Engineering Guindy, Anna University | 2017-2021 | CGPA 8.03/10

Chartered Financial Analyst, Level I, CFA Institute | Passed 2025

PROFESSIONAL EXPERIENCE

Associate, PwC India, Bengaluru | August 2026 - Present

- Took over an AI tool converting product demo videos into business requirement documents (Azure AI Foundry); rebuilt hardcoded prompting to generalise it across inputs and prioritise generated requirements via MoSCoW.
- Scoped Planner as a practice-wide project management tool and shipped a Power Automate workflow converting email and Teams action items into tracked tasks, now in daily use.

Software Developer, Wipro Technologies, Chennai | October 2021 - April 2024

- Built a custom CRM platform for Citibank to automate relationship manager workflows; identified prospect tracking as an upstream gap and owned the module end to end, enabling \$1.56M in new account revenue.
- Defined and delivered the MVP for the prospect management module by collaborating with a team of 10, shipping 15+ high-priority features in 6 weeks and accelerating delivery by 30% through scope prioritisation.
- Automated 8 prospect workflows with stage-transition alerts across 13-stage Institutional and 21-stage HNI pipelines, doubling portfolio capacity from 40 to 80 accounts per relationship manager.
- Authored 10+ feature PRDs and worked through 300+ user stories with Citibank's US-based Product Owner, cutting requirement rework by 30% across 15 production releases.
- Launched a portfolio analytics dashboard surfacing investment performance and contract lifecycles for HNI and Institutional segments, with automated renewal alerts lifting renewal rates from 60% to 75%.
- Redesigned the prospect module's UX after diagnosing bulk-loading latency (30K+ records) as the primary adoption bottleneck, cutting load times from 20s to under 1s and lifting daily manager usage from 60% to 85%.
- Coordinated with Citibank stakeholders and internal teams, demoing prospect module releases and converting escalations into scoped backlog items, lifting module CSAT from 75% to 90%.

INTERNSHIP

Business Consultant, Strategic Leadership Program, TCS | April 2025 - May 2025

- Led cross-functional discovery to define 50+ KPIs; launched 7 Power BI dashboards on SAP/ERP data, adopted by 15+ plant managers and used as the reference implementation in an enterprise client pitch.
- Authored the product business case for Analytics-as-a-Service and purchase-order automation from vendor price analysis; surfaced ₹3.45Cr in procurement savings and identified a 5% lead-time breach rate.
- Developed a time-series demand model across ₹46.7Cr of inventory to optimise safety-stock coverage; identified ₹3.1Cr in excess stock, enabling stakeholders to release ₹25L+ in working capital.

SKILLS

Product Management: Requirements gathering, PRDs, user stories, backlog prioritisation, scope prioritisation, stakeholder management, KPI definition

AI and Automation: Azure AI Foundry (GPT models), Azure Video Indexer, Power Automate, Claude Code
